## Web-Programming Project

### Yellow Page Portal

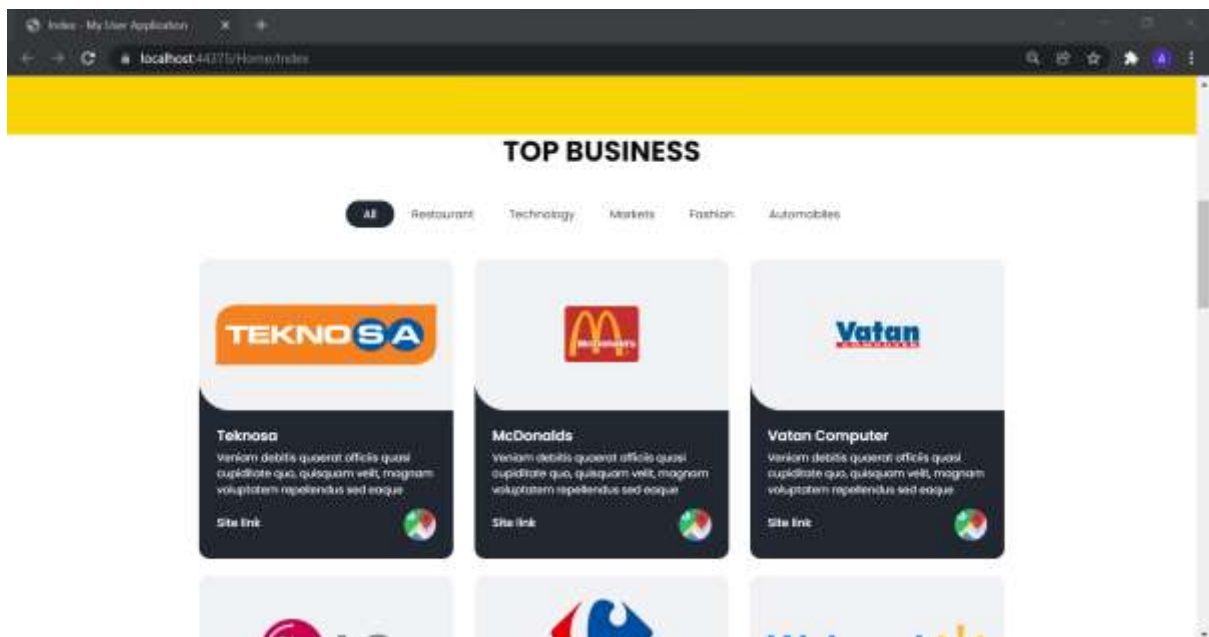

Ahmed Abeideh

This is the Index page of the Yellow-page portal and it has the following:

-Functionalities on the top-right of the screen there is a login button where the user can login as a user or an admin. On the navigation bar there are 4 sections where the user can navigate to, as in the middle there is a button which logged in user can use to add the business or company and under that there is five-categories where the user can choose from.

-In this section of the page there are “TOP BUSINESSES” which they are cards that have the location of the business as well as its logo.

-And in this section, we have the footer, contact us, location and social medias of the company.

-On the login page there are two sections where the user can sing up or sign in

By fill the related forms and following the rules of the registrations.

-In this section the user can request for adding a business by fill this form where it goes to the database then it gets on the admin panel where the admin

Approve of adding that business and from there the admin can add the business as well as delete the businesses on the database.

The screenshot shows a web browser window with the address bar displaying 'localhost:64375/Request/RequestBusiness'. The page has a navigation bar with links for 'Home', 'ABOUT US', 'CONTACT US', 'F.A.Q', and a 'LOG IN' button. Below the navigation bar, the title 'RequestBusiness' is centered. The main content area features a yellow form with the following fields: 'Company', 'Category', 'Address', 'Phone', 'Description', and 'Website'. At the bottom of the form are two buttons: 'Register' and 'Reset'. A small paperclip icon is visible in the top right corner of the form.

-On the top-right there “User Panel” where the it has the functionalities of a logged in user. There is a navigation bar where the user can navigate to the specified categories.
